Short bowls games for the time poor

At Beecroft we recognise that life is busier than it ever was. You still want to stay fit and play sport.

Our short games: 3 pm - 4:30 pm Saturdays offer the usual competition and skill of bowls in a short format. If you are not yet a bowler we will provide free coaching. Call to find out more 0424 625 267

Pennants is over for another year.

Both the guys and gals came close.

The women got the Pennant but missed out in the playoff.

The men played right down to the wire. Always disappointing to miss out but some great stories to tell.

We'll all be back to give it another go next year!

If you're not a bowler yet and want to find out why we love the game so much, please make contact. Free coaching to all new bowlers.

Put this in your Diary

What do you know about Thomas Davis and Co.?

Thomas Davis and Co. is a Sydney based firm of dedicated professionals who believe the firm is of a size ideally suited to meet its objectives, which are to offer a complete suite of public accounting, taxation, superannuation, and audit services to a wide range of persons and corporations and to maintain a prompt personal service to all clients at the highest level of professional competency.

Our firm employs an experienced team of highly qualified and motivated individuals who provide excellent service and through constant professional education keep abreast of new trends, policies and procedures across the business spectrum.

We take time to listen to our clients and translate our observations into practical, useful recommendations that help businesses grow and prosper. We explain and minimise the complexity of any situation using clear simple terminology.

We provide sound financial planning and reporting to meet your current requirements and those that develop as your goals change.

This blend of expertise and motivation is the driving force behind our success.

Hear from Shout Hearing...

I completed my Master of Clinical Audiology at Macquarie University and became an audiologist because I am passionate about helping people. I started Shout Hearing Healthcare to provide exceptional client service because I believe people want to feel connected and cared for. I want to be able to apply all of my university degree knowledge in the diagnostic and rehabilitation care of my clients. Communication is at the centre of audiology practice and Shout ensures our clients' needs are firmly at the centre of everything we do. I am a full member of the Audiological Society of Australia and a member of Independent Audiologists Australia. Importantly, Shout does **not pay any sales commissions and we are not affiliated** with any one manufacturer which means we can offer a full range of devices from all of the leading manufacturers and our **recommendations are therefore clinical based and unbiased**. Our diagnostic and rehabilitation services include:

- Comprehensive hearing assessments for adults and children 3 yrs +
- Free services and devices for Pension and DVA clients
- BPPV balance assessment and treatment
- Tinnitus management
- Musician Ear Plugs and hearing protection
- Hearing aid trials, fitting and rehabilitation
